

lines 25-26. In addition, the covering of material constituted by a film made by spraying or depositing a solution on the compact effervescent material or implemented in the form of capsules in which the effervescent bodies are enclosed is described in Applicants' specification on page 3, lines 31-34. Moreover, a shape as hemispherical as possible, or else as cylindrical in shape of the effervescent material compact to be covered, for example, by a film made by spraying or depositing solution on the polymer is described in Applicants' specification on page 4, lines 10-11. Finally, specific radius and height dimensions for such bodies of effervescent material covered with covering material such as by a film made by spraying or depositing a solution on the compact are given in the table on page 4 of Applicants' specification.

### SPECIFICATION

The Patent Office objects to the specification as failing to comply with 37 CFR §1.77(b). In response, the Applicants provide the following additions and amendments to the specification.

Please add the following paragraph before the paragraph beginning on page 1,  
line 2:

**"BACKGROUND OF THE INVENTION"**

**"Field of the Invention"**

Please add the following paragraph before the paragraph beginning on page 1,  
line 4:

**"Background"**

Please add the following paragraph before the paragraph beginning on page 1,  
line 14:

**"BRIEF SUMMARY OF THE INVENTION"**

Please add the following paragraph before the paragraph beginning on page 2,  
line 5:

**"BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWINGS"**
